Next Run

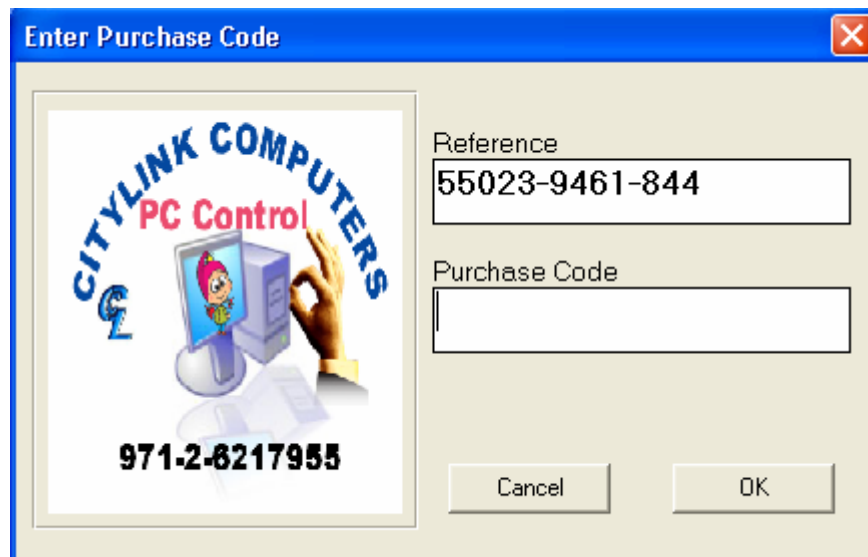

After setting the controls and Password, next time when you run PC Control the system prompts you for the password without entering the password the system will not run.

You may press cancel to back to your pre-set controls.

Remember if you forget the password you may not be able to remove the setting you have defined in the system. So do keep a record for your password and save it in safe place.

During the Trial period or Demo version, the system keeps displaying the Purchase code screen to remind you to activate your program :

You may press cancel to continue using the demo version or call the displayed number to get the Purchase code.
